

TREE PROGRAM SPRING 2012

The UNWNRD provides a tree distribution and planting program for all residents in the District. Species available and in stock are listed below. No minimum tree order required.

SPECIES AVAILABLE

MP	HP	MP-Machine Plant / Hand Plant
Qty	Qty	Bareroot Stock: \$.90 each
		American Plum SHRUBS:
		Buffalo Berry
		Caragana
		Chokecherry
		Cotoneaster
		Golden Currant
		Hansen Hedge Rose
		Lilac
		Sandcherry
		Serviceberry/Juneberry
		Sumac
		Woods Rose
		Black Walnut BROADLEAFS:
		Bur Oak
		Cottonwood, Hybrid - Cottonless
		Cottonwood, Native
		Siberian Elm
		Green Ash
		Hackberry
		Honeylocust
		Austrian Pine CONIFERS:
		Colorado Blue Spruce
		Ponderosa Pine
		Red Cedar
		Rocky Mt. Juniper
		Scotch Pine
		Potted Stock: \$1.80 each
		Aspen
		Austrian Pine CONIFERS:
		Black Hills Spruce
		Colorado Blue Spruce
		Ponderosa Pine
		Red Cedar
		Rocky Mt. Juniper
		Scotch Pine

Fabric Weed Barrier Charges:

Min. Fabric Installation Charge \$ 250.00 1000 lf or less

Planting Charges: *No Hand Planting*

Minimum Charge \$ 250.00 500 or less

NATIVE SHRUBS

***shrubs are good for wildlife.**

AMERICAN PLUM: Medium size. Forms dense thickets ideal for windbreaks. White flowers bloom in May, red-purple plums ripen in September-great for jellies.

BUFFALOBERRY: Medium/large-size shrub. Thorny, tree-like shrub. Produces tart, fleshy berries used in jellies. Drought resistant.

CHOCKECHERRY: Medium-size shrub. White flowers bloom in spring, cherries ripen during July. Great for making jellies and wines.

SANDCHERRY: Low-growing shrub. White flowers. Produces sweet purple cherries, good for making jelly. 4-6 ft wide thickets.

SKUNKBUSH SUMAC: Medium-size shrub. Forms clusters of red berry like fruit in summer.

SERVICEBERRY/ JUNE BERRY: 5-6 ft. White flowers in spring followed by edible, sweet dark purple fruits in late June.

GOLDEN CURRANT: Small shrub. Winter-hardy & drought tolerant. Yellow flowers in May. Edible fruit.

WOODS ROSE: 4-6 ft. Low growing shrub. Pink flowers, red fruit. Drought tolerant. Adapted to wide variety soils .

INTRODUCED SHRUBS

CARAGANA: Large spreading shrub. Provides dense cover for wildlife. Adaptable to extreme cold/wind. Tolerates all soils.

COTONEASTER: Low growing. Dark green foliage turns brilliant red-orange in fall. Berrylike fruit ripens in October. Great for hedges.

COMMON LILAC: Upright medium size. Fragrant white to lavender flowers bloom in May.

HANSEN HEDGE ROSE: 4-6 ft. Low growing shrub. Drought tolerant. Solitary flower, red fruit. Adapted to variety of soils.

NATIVE BROADLEAF TREES

ASPEN: 30-40 ft. Rapid Growth. Cold hardiness. Prefers moist soils. Must plant in clusters.

BLACK WALNUT: 40-50 ft. Chocolate brown wood and nut meats. Requires deep, silty-loam soil with good drainage.

BUR OAK: 40-50 ft. Grows variety of soil, but best rich, moist bottom lands. Slow/moderate growth.

COTTONWOOD HYBRID: 50-75 ft. Cottonless. Shorter life span, but faster growing than native. Rooted cutting.

COTTONWOOD NATIVE: 50-75 ft. Produces cotton. Fast growing.

GREEN ASH: 35-40 ft. Rapid growth. Drought and cold hardiness. Alkaline tolerance. Susceptible to Ash borer.

HACKBERRY: 40-50 ft. Elm-shaped leaves grayish bark. Moderate tolerance to adverse weather.

HONEYLOCUST: 35-45 ft. Fine-textured foliage turns golden yellow in fall. Long twisted/flat seed pods palatable to cattle.

INTRODUCED BROADLEAF TREES

SIBERIAN ELM: 40-50 ft. Rapid growth. Drought and cold hardiness. Tolerates alkaline soils.

NATIVE CONIFERS

PONDEROSA PINE: 40-60 ft. Can withstand prolonged drought. Cluster of three needles.

EASTERN RED CEDAR: 15-30 ft. Drought resistant. Russet color foliage in winter.

ROCKY MOUNTAIN JUNIPER: 15-30 ft. Drought resistant: prefers alkaline soils. Bluish green foliage in winter.

INTRODUCED CONIFERS

AUSTRIAN PINE: 40-50 ft. Pairs of needles 4-6 inches long. Christmas trees.

BLACK HILLS SPRUCE: 25-45 ft. Dense slow growth, green. Shorter needles, more drought tolerant than CO blue spruce.

COLORADO BLUE SPRUCE: 60-70 ft. Color dark green to silvery bluish green. Medium growth rate and long life span.

SCOTCH PINE: 30-40 ft. Rapid growth. Susceptible to pine wilt.
